2023 Hyderabad Formula E (E-Prix)

Our IT department students participated in the 2023 Hyderabad Formula E Championships.

Students from SNIST's Department of IT took part in the 2023 Hyderabad Formula E (E-Prix) Racing Competition. Our students performed well at the prestigious event. This achievement is another feather in the cap and we look forward to being a part of such events in the future which will bring laurels to the departments and to the Institution.

SELECTION PROCESS:

The interested candidates had to fill up the application form on the 24th of January, 2023. The details like name, DoB, educational qualification, and other details of the participating students were asked. Then, they had to answer questions like the area where they were interested to work in, what unique skills they possessed, and what they were expecting to learn by participating in the event. Later that day, we got the results. A total of 50 Students from the IT Department took part in the event. Each member was informed prior regarding their unique role in the event.
