(57) Abstract :

The present invention is directed towards a method of providing guidance to students seeking help for their future in graduation and post-graduation. The method involves making an interactive platform available for students to communicate with final year students at their desired college. The platform offers live chat and audio communication, along with counseling services to help students choose the best college and branch that suits their requirements. Additionally, the method allows students to compare different colleges and explore colleges all over India. The final year students can share their experiences and provide advice and suggestions for courses and skills to be learned. The platform also offers a premium subscription for more interactions and help. This method provides a comprehensive and effective solution to help students make informed decisions about their future academic pursuits.
